

FA1 Series

Outdoor Front Service LED Display-P3.9, P4.8, P6, P8, P10

Front Maintenance

Up to 10000nits

Wide Viewing Angle

Excellent Performance

High Definition

13bits ~ 16bits

1920Hz ~ 3840Hz

High IP Level

Innovative Cabinet Design

The FA1 cabinet has a unique and innovative feature: The modules can be spliced into a 90 degree angle seamlessly, without the black line. This feature allows the screen to fit 90 degree shape wall-mounted installation perfectly.

Premium LED Screen for Outdoor Advertising

Designed for outdoor advertising, our FA1 series has been proved to be a very successful front access LED screen. To make the LED display stable and reliable, we have carefully selected high-quality materials.

The pixel pitches are

SMD LED module: P3.9, P4.8, P5, P6.1, P6.6, P8, P10

DIP LED module: P10, P16, P20

High Brightness

The brightness of this outdoor advertising display can be up to 10,000nits. So the display content will still look very clear in direct sunlight.

Lower Attenuation

The LED screen is still bright enough in the sun after 6 years.

Less Power Consumption

We have adopted the unique design. This LED cabinet consumes 30% less power than the other similar products in the market.

High Brightness

Fully Front Access Design

With fully front access design, all components, such as power box, receiving card and other accessories, can be removed in the front of the LED cabinets.

103mm Thickness and Neat Back

The LED screen panel can be very thin and its back is neat, so it can be directly mounted on the wall. You don't need to leave any space in the back.

High Protection Grade

This outdoor LED cabinet can be designed to be no door, no fan and no ventilation. Therefore, the protective grade is higher than IP65. That's to say, the LED display can function well in dusty roadside and seashore.

Wide Viewing Angle

We use high-quality plastic mask on the LED modules, which makes the LED screen very flat. Thus, the viewing angle is wider than that of other LED products. Moreover, the LED display is able to attract more audience.

Great Performance

We adopt the scientific design to reach 3840Hz refresh rate and 14bits grayscale. So the LED video screen won't look flickering in the camera and the visual effect will also look even more amazing.

Multiple Functions

FA1 full color LED displays are mainly for outdoor advertising. They have been sold to many countries, including Australia, Qatar, Saudi, Thailand, etc. Those countries have very strong sunlight or high humidity. This product is usually used in:

- Mall Advertisement;
- Stadiums scoreboard;
- Road billboard, etc.

FA1 Parameters

Item	P8	P10	P10	P16	P20
Pixel Pitch	8mm	10mm	10mm	16mm	20mm
LED Type	SMD2727	SMD2727	DIP346	DIP346	DIP346
Module Resolution	40dots × 40dots	32dots × 32dots	32dots × 16dots	20dots × 10dots	16dots × 8dots
Driving Mode	1/4scan	1/2scan	1/4scan	static	static
Module Pixels	1,600dots	1,024dots	512dots	200dots	128dots
